

**A Guide to  
New Haven Maps  
in the Whitney Library**

New Haven Museum & Historical Society  
2007

Introduction

All of the maps listed in this guide are found under the subject heading “New Haven—Maps” or “New Haven—Harbor—Maps” in the card catalog of the Whitney Library. There they can also be found in the catalog by author (the map creator) or by title. This guide provides a listing by date. This date is usually that of the subject of the map rather than its publication. For example, the Brockett Map is listed under the year 1641 for this is what the map attempts to show even though the only versions available to us are those printed in 1880.

Map researchers should be aware of the way in which call numbers are listed:

Listings beginning with the letter of the LC Classification system are found on the open shelves.

Listings beginning with an asterisk (\*) are in the closed stacks and a call slip should be submitted to the Library Staff to access this material.

Listings beginning with the word “Atlas” are bound books of maps and can be found in the atlas cases.

Listings beginning with the word “Map” are larger, unbound maps and can be found in the map cases in the Reading Room.

Please ask for assistance in locating the items you are seeking.

Note that not all of the catalog information is repeated in this Guide. Researchers are encouraged to look in the card catalog for additional details such as place of publication, the map scale and dimensions.

The Whitney Library has many other maps which may be of interest to New Haven researchers, some of which are classified under “Connecticut” or “New Haven County.”

James W. Campbell  
Librarian and Curator of Manuscripts

- 1640 New Haven region before 1640, s.d.
