VIII. Analysis: Two boxes of documents have been added to the White Collection. The additional material has been placed at the end of the original collection and given the MSS #62E.

No attempt has been made to interfile the new papers with the original collection, but it has been arranged in the same order, e.g. additions to MSS #62A (Dyer White) have been filed first, etc. The new material has also been filed under the same headings as in the original collection, and in the new Table of Contents, the manuscript number, box and folder reference where the new material would have been interfiled is noted next to each folder description. The reader may, therefore, refer back to the appropriate documents.

The new material consists chiefly of letters, genealogical notes and some printed pamphlets. Some of it comes from the Leffingwell Autograph Collection.
